# Specifications

## Technical specifications

- Starting time: 0.2 s
- Power factor: 0.6
- Mercury content: 1.5 mg
- Lifetime of lamp: 6 year(s)
- Rated lifetime: 6 year(s)
- Rated power: 7 W
- Wattage: 7 W
- Lamp dimension (height): 29.5 mm
- Wattage equivalent: 35 W
- Lamp current: 55 mA
- Lamp dimension (width): 75.5 mm
- Colour rendering index (CRI): 82
- Lumen: 250
- Rated luminous flux: 250 lm
- Colour temperature: 2700 K
- Number of switch cycles: 5000
- Lifetime of lamp: 6000 hour(s)

- Rated lifetime: 6000 hour(s)
- Lumen maintenance factor: 0.65 (at the end of the nominal lifetime) %
- Voltage: 220-240 V
- Warm up time 60% light output: 5–30 s
- Energy efficiency label: A
- Fitting/Cap: GX53
- Dimmable: No
- Shape: Spiral
- Colour: Warm White
- Light effect/finish: White
- Wattage standard bulb: 35 W

## Cleaning up breakages and disposal

- Cleaning: Follow the advice for proper clean up\*
- Disposal: Follow the instruction for disposal as special waste\*\*

# Highlights

## Saves up to 80% energy

Save up to 80% energy compared to your standard bulb. It pays for itself and saves you money year after year. So reduce your energy bill and start saving now.

## Replaces your reflector lamp

Making the change is simple. Replace your reflector lamp and enjoy all the benefits modern technologies offer.

\* Breaking a lamp is extremely unlikely to have any impact on your health. If a lamp breaks, ventilate the room for 30 minutes and remove the parts, preferably with gloves. Put them in a closed plastic bag and take it to your local waste facilities for recycling. Do not use a vacuum cleaner.

\*\* Compact fluorescent lamps have to be treated as special waste, they must be taken to your local waste facilities for recycling. The European Lighting Industry has set up an infrastructure, capable of recycling mercury, other metals, glass etc.
